Independent Auditors' Report

Board of Directors Community Mental Health Authority of Clinton, Eaton, and Ingham Counties Lansing, Michigan

We have audited the accompanying financial statements of the governmental activities, the General Fund, and the aggregate remaining fund information of the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority), as of and for the year ended September 30, 2006, which collectively comprise the Authority's basic financial statements, as listed in the accompanying table of contents. These financial statements are the responsibility of the management of the Authority. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the General Fund, and the aggregate remaining fund information of the Authority, as of September 30, 2006, and the changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated February 16, 2007, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit preformed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's discussion and analysis on Pages 5 through 12 is not a required part of the financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The Combining and Individual Fund Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management Discussion and Analysis

As management and administrators of the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority), we offer readers of the Authority's financial statements this background information on our funding and analysis of the financial activities of the Authority for the fiscal year ended September 30, 2006.

Funding Background

External factors which impact the fiscal condition and actions of the Authority: A number of factors impact the Authority's ability to carry out its mission and its ability to maintain fiscal stability. Those factors include:

- Constrained state funding, for both of the Authority's major revenue sources, State General Fund/General Purpose dollars and Medicaid.
- Support, by the current Governor, for the Community Mental Health (CMH) system and the services that it provides. In spite of constrained state funding, this support has been critical in bolstering the financial stability of the organization.
- Changing Medicaid enrollment and rates (pre-paid rates), the latter the result of a bi-annual actuarial rebasing effort.
- Fiscal and operational impact of the Authority's role, as the Prepaid Inpatient Health Plan (PIHP) for an eight county region carried out via an Affiliation with four other CMHSPs and two substance abuse coordinating agencies.
- Changes to the federal Medicaid waivers, under which Michigan operates its Medicaid program, including the Specializes Medicaid services managed and provided by the Authority.

The Authority's aggressive, proactive, and responsive actions to leverage or counter the impact of these factors: The Authority is not a passive observer to the factors listed above. The Authority:

- Actively engages in legislative efforts, as part of the Michigan Association of Community Mental Health Boards, the Mental Health Coalition, and acting on its own to ensure sound funding for the Authority and the entire Michigan CMHSP system.
- As a part of its annual budget development effort, prepares, well in advance, for a range of revenue and expense scenarios.

Management Discussion and Analysis (Continued)

- Takes aggressive steps to reduce costs via increases in staff efficiency and the utilization of the flexibility granted the Authority under the Medicaid managed care waiver. These steps worked to maximize the positive impact of some environmental factors and to minimize the negative impact of others.
- Builds alliances with community partners to stretch limited resources. The Authority is an active member of dozens of local, regional, statewide, and national collaboratives and partnerships.
- Continues to aggressively seek additional funding for a wide range of innovative services
 to the tri-county community, including federal, state, local, commercial, and private
 sources. This has resulted in the receipt of a number of state and federal grants (totaling
 several million dollars annually), allowing the Authority to experiment with new and
 innovative approaches, with an eye toward sustaining these changes when the grant
 funding ceases.

Ensuring the Integrity of the Authority's clinical, fiscal, and organizational infrastructure: The Authority has been committed, in the face of varying fiscal conditions, to remaining clinically, organizationally, and fiscally strong while ensuring its infrastructure was not permanently damaged by budget cuts. The following provides a picture of that strength:

- The Authority has been committed to and successful in making budget cuts avoiding, whenever possible, harm to consumers.
- The Authority maintains the clinical and administrative infrastructure of the Authority in the face of these cuts. This infrastructure is represented by sound clinical philosophies and approaches, skilled and committed staff, strong wages and fringe benefits, sound facilities and equipment, strong managerial and administrative capabilities (information services, finance, human resources, quality improvement), strong training capabilities, and strong community education efforts. This is a critical and conscious part of the Authority's approach. The Authority has seen far too many human services and governmental bodies faced with fiscal uncertainty and a rapidly changing environment, make draconian compensation cuts, eliminate staff training, reduce or eliminate building and equipment maintenance, and dramatically reduce supplies, travel, and other resources key to carrying out their mission. These cuts are short-term and leave the organizations incredibly weakened. We have not opted for this course of action.
- The authority maintains a strong fiscal operation. Over the past several years, the Authority has developed its fiscal monitoring and management abilities, with everincreasing sophistication, while building its risk reserve (internal service funds and carryforward) and unreserved fund balance to a sound \$8.5 million.

Management Discussion and Analysis (Continued)

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Authority's financial statements. The Authority's financial statements comprise three components:

- 1. Government-wide financial statements
- 2. Fund financial statements
- 3. Notes to the financial statements

This report also contains other supplementary information in addition to the financial statements themselves.

Government-Wide Financial Statements

The Government-Wide Financial Statements are designed to provide readers with a broad overview of the Authority's finances in a manner similar to a private-sector business. This is accomplished by reporting the Authority's assets and liabilities using the full accrual method of accounting. Prior to the implementation and adoption of GASB No. 34, the assets and liabilities of the Authority were reported using the modified accrual method accounting. In essence, this change in accounting method requires the Authority to disclose borrowings, compensated absences for employees, and capital assets less accumulated depreciation on the Authority's financial statements.

The Statement of Net Assets presents information on all the Authority's assets and liabilities with the difference between the two reported as total net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Activities presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. In addition, this statement discloses the non-cash expenditure of depreciation that affects the ending book value of capital assets.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources segregated for specific activities or object. The Authority, similar to state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Authority may be divided into three categories: The Governmental Fund, Internal Service Funds, and Fiduciary Funds.

Management Discussion and Analysis (Continued)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, a well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirement.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Authority adopts an annual budget for its General Fund. Budgetary comparison statements have been provided for the General Fund to demonstrate compliance with those budgets.

Proprietary Funds – Internal Service Funds

Proprietary funds are used to account for the Authority's business-type activities. The Risk Reserve Funds are used to account for assets held as a reserve against potential liabilities relative to and as allowed by its contract with the Michigan Department of Community Health (MDCH). Pursuant to these contractual provisions, the Authority's risk management plan has been reviewed and approved by MDCH. Separate risk reserves are maintained for mental health and substance abuse services. The Fixed Asset Replacement Reserve is used to account for and finance future fixed asset purchases and the Compensated Absences Reserve is used to account for the Authority's vacation benefit liability. Both the Fixed Asset Replacement Reserve and the Compensated Absences Reserve are permitted by the Michigan Mental Health Code.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Authority's own programs. Fiduciary funds are commonly referred to as payee funds. The accounting used for fiduciary funds is much like that used for proprietary funds.

Management Discussion and Analysis (Continued)

Notes to Financial Statements

The notes provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The accompanying notes are an integral part of the financial statements and must be reviewed in conjunction with the information reported on the financial statements to provide a full understanding of the Authority's financial situation.

Other Information

The combining statements are presented immediately following the notes to the financial statements.

Government-Wide Financial Analysis

The largest portion of the Authority's total assets (42%) reflects its investment in capital assets (e.g., land, buildings, vehicles, and equipment). These capital assets are used by the Authority to provide services to the clients it serves; consequently, these assets are not available for future spending and are considered fixed. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The corresponding debt for the facilities makes up the largest portion of the Authority's liabilities representing approximately 36%.

Financial Analysis of the Government's Funds

As noted earlier, the Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Authority's Governmental Fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Management Discussion and Analysis (Continued)

As of the end of the current fiscal year, the Authority's Governmental Fund reported an ending fund balance of \$3,445,452, an increase of \$543,170 in comparison with the prior year. Approximately 66.3% of this total amount (\$2,287,601) constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved or restricted to indicate it is not available for new spending because the underlying assets are included in inventory, long-term receivables and prepaids and are not available for current expenditures.

Capital Assets and Debt Administration

Capital Assets

The Authority's investment in capital assets for its governmental activities as of September 30, 2006, amounted to \$16,171,502 (net of accumulated depreciation of \$14,263,458). This investment in capital assets includes land, buildings, vehicles, and equipment. Additional information on the Authority's capital assets can be found in Note 6 of the financial statements.

Debt Administration

The Authority's long-term debt activity consisted of borrowing \$1,339,502 for vehicles and facilities and making debt service payments of \$1,000,635 to increase debt by \$338,867. Additional information on the Authority's long-term obligations can be found in Note 7 of the financial statements.

Budget Modifications

There were three primary budget modifications in fiscal year 2006 impacting both revenues and expenses:

- Children's Services budgets increased by \$1,200,000 as a result of entering into a new contract
 with the Substance Abuse and Mental Health Services Administration (SAMHSA) and amended
 their contracts for Child Care Funds to deliver services to children not previously served by our
 agency.
- Adult Mental Health Service budgets increased by \$500,000 for the purchase of injectable
 medications and the collection of fees for the cost of the medication. In addition, the
 administration of the medication were budgeted separately for the first time in order to comply
 with MDCH reporting requirements.
- Adult Mental Health Service budgets increased by \$1,300,000 for the placement of consumers in state facilities and community hospitals due to the greater need for services and the increased rates of these services.

Management Discussion and Analysis (Concluded)

· Variance Budget to Actual

- Children's Services contracts with SAMHSA and the Child Care Funds were under budget by \$450,000 due to delays in implementation of the contracts.
- Fiscal year 2006 Medicaid funds of \$1,100,000 for our Affiliation were deferred for use in fiscal year 2007.
- The Authority moved from the accrual basis for recording insurance fees for services provided to recording fees on the cash basis, and the Authority recognized a loss of \$680,000 incurred in fiscal years 2005 and 2006 from the administration of injectable medications.

Contacting the Authority's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the funds received. Notes to Financial Statements

1. Description of the Authority

The Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority) was established under Section 205 of the Michigan Mental Health Code.

The Authority provides services generally in the areas of mental health, comprehensive substance abuse treatment, and developmental disabilities for the Clinton, Eaton, and Ingham County region. The Authority's activities are funded through federal grants, state allocations, premium revenue, county appropriations, service fees, and local gifts and grants.

The Authority serves as the Prepaid Inpatient Health Plan (PIHP) for the Community Mental Health Affiliation of Mid Michigan (CMHAMM). In this role, the Authority is responsible for the Medicaid revenue and expenditures of an eight county region consisting of Benzie, Clinton, Eaton, Gratiot, Ingham, Ionia, Newaygo, and Manistee Counties.

2. Summary of Significant Accounting Policies

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority's significant accounting policies are described below.

Basis of Presentation

Government-Wide Financial Statements: The Statement of Net Assets and the Statement of Activities report information on all of the activities of the Authority. For the most part, the effect of inter-fund activity has been removed from these statements. The Government-wide financial statements categorize activities as either governmental or business-type. All of the Authority's activities are classified as governmental.

The Statement of Activities demonstrates the degree to which the direct expenses related to a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to recipients who purchase, use, or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function. Other items not included among program revenues are reported as general revenues.

Notes to Financial Statements (Continued)

Fund Financial Statements - Separate financial statements are provided for the Governmental Fund, Proprietary Funds, and Fiduciary Funds. The General Fund is the only governmental fund in the fund financial statements.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available if they are collected within the current period or soon enough after to pay liabilities for the current period. The Authority considers revenues available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences, are recorded only when payment is due.

Service charges to first and third-party payor and grant funds associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The Authority reports the following major governmental fund -

• The General Fund is the general operating fund of the Authority. It is used to account for all financial resources except those required to be accounted for in another fund.

Additionally, the Authority reports the following fund types:

- The Internal Service Funds are used to account for and finance potential uninsured risks of loss related to various funds received through the Michigan Department of Community Health (MDCH), as well as for reserves for fixed asset replacement and compensated absences, as permitted by the Michigan Mental Health Code.
- The Fiduciary Funds are used to account for resources held for the benefit of parties outside the government.

Notes to Financial Statements (Continued)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Authority has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the government's Internal Service Funds are charges to other funds for services provided. All revenues and expenses not meeting this definition are reported as non-operating revenues.

Assets, Liabilities, and Net Assets

Cash and Investments - Cash includes cash on hand, demand deposits, and certificates of deposit. Investments include deposits with a maturity of more than three months from the purchase date and money market accounts.

Affiliate Receivable - Affiliate receivables represent funds due to the Authority from affiliate counties under the PIHP.

Inventories, Prepaids, and Deposits – Inventories are valued at the lower of cost or market on a first-in, first-out basis, which approximates market. Inventories consist of materials for the toothbrush production facility at Bretton Square.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Certain funds held by third parties for future benefits are recorded as deposits. Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund balances.

Capital Assets - Capital assets are capitalized and reported in the Fixed Asset Replacement Reserve Internal Service Fund, net of accumulated depreciation. All purchased fixed assets are recorded at cost where historical records are available and at estimated historical costs where no historical records exist. Donated fixed assets, if any, are valued at their estimated fair market value on the date received.

Notes to Financial Statements (Continued)

Only improvements that add to the value of the asset or materially extend assets useful lives are capitalized. It is the policy of the Authority to capitalize assets whose value exceeds \$5,000. Capital assets are depreciated on the straight-line basis over the estimated useful lives:

Building and improvements	10-25 years
Capitalized building lease	40 years
Equipment	5-10 years
Vehicles	3 years

Compensated Absences - Compensated absences are charged to operations in the Compensated Absences Reserve Internal Service Fund when earned by employees.

MDCH Revenue - The Authority provides mental health services on behalf of the MDCH in accordance with a managed specialty supports and services contract. Under the contract, the Authority receives monthly capitation payments based on the number of the MDCH's participants, regardless of services actually performed by the Authority. In addition, the MDCH makes fee-for-service payments to the Authority for certain covered services.

Deferred/Unearned Revenue - Deferred unearned revenue represents the portion of the current year MDCH contract amount and other grant revenues that may be carried over to and expended in subsequent fiscal years.

Medicaid savings, which are limited to 7.5% of the MDCH Medicaid contract amount, must be spent in the following year in accordance with a Medicaid Reinvestment Strategy. State general funds savings, which are limited to 5% of the MDCH general fund contract amount, must be spent in the following year.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)

Net Assets – Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any liabilities used for the acquisition of construction of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations from other governments.

CMH Affiliation of Mid-Michigan - In 2003, the Michigan Department of Community Health changed the requirements for administering Medicaid contracts. As part of this change, smaller CMH boards were required to partner together to create affiliations of sufficient size to be able to contract with MDCH. The Authority acts as the PIHP for one such affiliation. Accordingly, a substantial portion of the Authority's budget is reported as "Medicaid pass-through," and is passed-through to the CMH boards of other counties, subject to an affiliation agreement.

3. Stewardship, Compliance, and Accountability

Budgetary Information - The annual budget is prepared by the executive director in August of each year and adopted by the Authority during September. The budget reports revenue related to substance abuse separately from the other revenue categories, as reported on the Statement of Revenue, Expenditures, and Changes in Fund Balance – General Fund. The budget reports expenditures by activity versus object classification. Subsequent amendments are approved by the Authority.

Excess of Expenditures Over Appropriations - The budget has been adopted on a program basis; expenditures at this level in excess of amounts budgeted are a violation of Michigan law. This comparison includes expenditure budget overruns. Expenditure budget overruns were as follows:

Year ended September 30, 2006	Original Budget	Final Budget	Actual	Fin	iance with aal Budget Positive Negative)
Adults with mental illness	\$24,179,341	\$ 25,722,553	\$25,762,059	\$	(39,506)
Substance abuse	\$ 3,781,565	\$ 3,578,032	\$ 3,635,798	\$	(57,766)

Notes to Financial Statements (Continued)

4. Cash, Deposits, and Investments

Deposits - State statutes require that certificates of deposit, savings accounts, deposit accounts, and depository receipts are made with banks doing and having a place of business in the state of Michigan that are also insured by an agency of the United States.

The Authority's investment policy complies with the State statutes and has no additional limitations on deposits.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits might not be recovered. The Authority does not have a policy for mitigating custodial credit risk over deposits. At September 30, 2006, \$15,763,009 of the Authority's bank balances of \$16,165,077 were exposed to custodial credit risk as follows:

Uninsured and Uncollateralized:

Cash and savings	\$ 9,191,609
Money market	1,477,097
Certificates of deposit	 5,094,303
-	

Total Uninsured and Uncollateralized \$ 15,763,009

At September 30, 2006, all of the fiduciary bank balances of \$611,345 included in the Statement of Fiduciary Net Assets were exposed to custodial credit risk as uninsured and uncollateralized.

Investments – State statutes authorize the Authority to invest in obligations and certain repurchase agreements of the United States Treasury and related governmental agencies, commercial paper, banker's acceptances of the United States banks, obligations of the state of Michigan or any of its political subdivisions, and mutual funds composed entirely of the above investments. As of September 30, 2006, the Authority had no such investments.

Notes to Financial Statements (Continued)

5. Receivables

Receivables, as of September 30, 2006, for the Authority's General and Internal Service Funds in the aggregate, are as follows:

	General	Internal Service	Total	Amount Not Expected to be Collected Within One Year
Receivables:				
Grants and contracts	\$ 2,514,125	\$ -	\$ 2,514,125	\$ 60,655
Affiliate	1,320,031	-	1,320,031	-
Fees	1,916,353	-	1,916,353	-
Trade	90,005	-	90,005	-
Other receivable	427,006	11,507	438,513	
Total Receivables	\$ 6,267,520	\$ 11,507	\$ 6,279,027	\$ 60,655

The Authority estimates all receivables will be fully collected.

The Governmental Fund report deferred revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. The Governmental Fund also defers revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the Governmental Fund were as follows:

	Deferred
General Fund	\$ 5,578,917

Notes to Financial Statements (Continued)

6. Capital Assets

Capital asset activity for the year ended September 30, 2006, was as follows:

	Balance October 1, 2005	Additions	Deductions	Balance September 30, 2006
Governmental Activities:				
Capital assets not depreciated - Land	\$ 1,428,250	\$ 97,044	\$ -	\$ 1,525,294
Capital assets depreciated:	,	•		, ,

Adults with mental illness	\$ 385,201			
Children with emotional disturbance	52,961			
Developmental disabilities	423,117			
Substance abuse	35,870			
Board administration	214,196			
Total Depreciation Expense by Function	\$ 1 <u>,</u> 111,345			

Notes to Financial Statements (Continued)

The Authority leases various buildings and equipment under operating leases. These leases generally have a term of one year. Total costs for such leases were recorded as rent expense in the supplemental financial schedules included with this report and amounted to \$640,860 for the year ended September 30, 2006.

7. Long-Term Obligations

The following is a summary of long-term debt transactions of the Authority:

September 30, 2006	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities: Installment debt:					
Capital leases	\$ 5,667,209	\$ -	\$ 493,631	\$ 5,173,578	\$ 478,416
Notes payable	3,480,018	1,015,000	308,650	4,186,368	276,936
Vehicle loans	202,207	324,502	198,354	328,355	207,568
Total installment debt	9,349,434	1,339,502	1,000,635	9,688,301	962,920
Compensated absences	1,836,221	1,622,364	1,417,279	2,041,306	1,607,303
Total Long-Term Liabilitie	s -				
Governmental Activities	\$11,185,655	\$ 2,961,866	\$2,417,914	\$ 11,729,607	\$2,570,223

Annual requirements to pay principal and interest on long-term debt are as follows:

	Governmen	tal Activities	
Year ending September 30,	Principal	Interest	Total
2007	\$ 962,920	\$ 464,028	\$ 1,426,948
2008	687,186	418,774	1,105,960
2009	467,159	388,740	855,899
2010	463,512	369,642	833,154
2011	518,651	348,907	867,558
2012-2016	2,957,221	1,531,613	4,488,834
2017-2021	2,854,751	564,308	3,419,059
2022-2026	489,346	177,462	666,808
Thereafter	287,555	35,522	323,077
	\$ 9,688,301	\$ 4,298,996	\$ 13,987,297
	\$ 9,688,301	\$ 4,298,996	\$ 13

Notes to Financial Statements (Continued)

Long-term installment debt payable at September 30, 2006, is comprised of the following:

September 2008 Total Long-Term Debt	<u> </u>	328,355 9,688,301
Vehicle leases payable, interest at 5.50%, due in monthly installments through		
Notes payable, including interest ranging generally from 4.3125% to 85% of prime (prime was 8.25% at September 30, 2006), due in monthly installments through September 2024, collateralized by land and buildings		4,186,368
Capital leasehold improvements payable, interest at 5.00%, due in monthly installments of \$2,285 through April 2021		283,466
Capital building lease payable, interest at 7.39%, due in monthly installments of \$14,670 through July 2008; the lease continues through July 2038 with payments consisting solely of utility costs after July 2008		287,963
Capital building lease payable, interest ranging from 4.30% to 5.00%, due in semi-annual installments ranging from \$215,553 to \$488,335, plus interest, though July 2018; the lease continues through July 2048	\$	4,602,149

8. Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The Authority manages its risk exposures through commercial insurance and excess coverage policies. On risks that are commercially insured, the Authority retains risk of loss ranging from \$1,000 - \$25,000. Settlements have not exceeded commercial insurance coverage in any of the past three years.

In addition, the Authority provides dental employee benefits through a self-insurance plan. Claims expenditures and liabilities are reported in the General Fund when it is probable that a loss has occurred and the amount can be reasonably estimated. At September 30, 2006, the amount of this liability was approximately \$34,000.

Notes to Financial Statements (Continued)

The Authority is exposed to risk of loss up to 7.5% of revenues received from the state of Michigan under its managed care contracts. To manage these risks, the Authority makes payments to the Mental Health and Substance Abuse Risk Reserve Internal Service Fund based on actuarial estimates of the amounts needed to pay prior and current claims and to establish a reserve for excess loss.

The Authority established savings goals as follows: 1) Medicaid savings goal of up to 7.5% of Medicaid revenues and not less than 2.5% of Medicaid revenues; 2) General Fund savings goals of up to 5% of General Fund revenues; 3) Medicaid Internal Service Fund reserves to no greater than the maximum amount allowed by MDCH; and 4) General Fund Internal Service Fund reserves to no greater than the maximum amount allowed by MDCH.

The Fixed Asset Replacement and Compensated Absences Reserve Internal Service Funds are restricted for securing resources to fund future capital asset replacements and making payments on accrued compensated absences, as permitted by the Michigan Mental Health Code.

Following is a schedule of changes in Net Assets of the Risk Reserve Internal Service Funds:

Year ended September 30, 2006	Mental Health	Substance Abuse	Fixed Asset Replacement	Compensated Absences
Beginning balance Additions Deletions	\$ 2,140,271 102,165 (514,456)	\$ 87,457 3,662	\$ 6,096,522 1,546,196 (1,514,339)	\$ - 205,085 (205,085)
Ending balance	\$ 1,727,980	\$ 91,119	\$ 6,128,379	s -

Additions to the Mental Health and Substance Abuse Risk Reserves were comprised of funds received from MDCH and interest earnings. Additions to the Fixed Asset Replacement and Compensated Absences Reserves were comprised of interfund charges for services and gains on the sale of capital assets. Reductions in the reserves represented the funds' respective program services and depreciation.

Contributions to the Internal Service Funds are considered eligible expenditures under the MDCH contract and, accordingly, are included on the Statement of Revenue, Expenditures, and Changes in Fund Balance - General Fund in the various expenditure categories.

Notes to Financial Statements (Continued)

9. Interfund Receivables, Payables, and Transfers

The Authority has the following interfund receivables and payables:

Due to:		General Fund		Compensated Absences Reserve		Total Payable	
Due from:							
General Fund	\$	-	\$	2,041,306	\$	2,041,306	
Mental Health Risk Reserve		732,074		-		732,074	
Fixed Asset Replacement Reserve		33,203		<u>-</u>		33,203	
Total Receivable	\$	765,277	\$	2,041,306	\$	2,806,583	

These balances represent the difference between the cumulative cash flows of the fixed asset replacement reserve, risk reserve, and compensated absences reserve, and the amounts charged to the General Fund as eligible expenditures under the MDCH contract.

The Mental Health Reserve Internal Service Fund transferred \$505,628 to the General Fund to fund excess expenditures.

10. Retirement Plan

Defined Benefit Pension

The Authority participates in an agent multiple-employer defined benefit pension plan administered by the Municipal Employees Retirement System of Michigan (MERS), which provides retirement, death, and disability benefits covering substantially all of the Authority's full-time employees. MERS issues a publicly available financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to MERS, 1134 Municipal Way, Lansing, Michigan 48917.

The obligation to contribute to and maintain MERS for these employees was established by negotiation with the Authority's collective bargaining units and requires a contribution from employees of 1.54% to 6.34%.

See accompanying independent auditors' report.

Notes to Financial Statements (Continued)

For the year ended September 30, 2006, the Authority's annual pension cost of \$2,929,457 for the plan was equal to the required and actual contribution. The annual required contribution was actuarially determined as a percentage of payroll ranging from 12.58% to 15.58% using the entry actual age cost method. At December 31, 2005, the date of the latest actuarial valuation significant actuarial assumptions used include (a) an 8% investment rate of return, (b) projected salary increases of 4.5% per year, plus a percentage based on an age related scale to reflect merit, longevity, and promotional salary increases, and (c) withdrawal rates ranging 0 - 18% based on years of service for members with less than five years of service and based on age for members with five years or more of service. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four-year period. The unfunded actuarial liability is being amortized as a level percentage of payroll on a closed basis over 30 years.

Defined Contribution Pension

UAAL as a percentage of covered payroll

The ICMA-RC is a defined contribution pension plan established by the authority to provide benefits at retirement to physicians that elected to discontinue their participation in the MERS defined benefit plan as of August 1, 2000, and to all physicians that were hired after August 1, 2000. At September 30, 2006, there were 13 plan members. Plan members are required to contribute 3% of covered salary. The authority is required to contribute 7.7% of annual covered payroll, totaling approximately \$85,000 for the year ended September 30, 2006. Plan provisions and contribution requirements are established and may be amended by the Authority.

See accompanying independent auditors' report.

Notes to Financial Statements (Concluded)

11. Other Postemployment Benefits

In addition to the pension benefits described in Note 10, the Authority provides postretirement health care benefits for eligible retirees of the Local 459 union. To be eligible upon retirement, the employee must be vested in the pension plan, be in a residential, RN or local 459 position for 10 years, including the five prior to retirement, and be at least 60 years of age. The plan allows retirees to purchase health care insurance for \$75 less than the cost. If the plan does not have proper funding for this discount, the cost to the retiree will increase. The Authority is obligated to make annual contributions of \$25,000 under the plan and is not required to provide any additional funding to the plan.

12. Grants and Contracts

The Authority participates in various federal, state, and local grants for mental health and substance abuse programs. Certain provisions and allowable levels of participation and expenditures not qualifying for participation are subject to interpretation and adjustment by appropriate governmental agencies. The state of Michigan allocation under Act 258 provides support for all qualifying programs and allowable costs, with the balance being provided by contributions from local sources.

State grants are subject to audit by responsible state agencies. Although these audits may result in some changes, they are not expected to have a material effect on the financial statements.

13. Commitments

At September 30, 2006, the Authority has a commitment to contribute \$20,000 annually to a major maintenance fund controlled by Ingham County for repairs on property under a capital lease agreement with Ingham County. The obligations under this lease agreement expire on July 1, 2018. The major maintenance fund held by Ingham County is restricted for use for maintenance scheduled in the agreement; therefore, the balance is not recorded by the Authority. The balance of this fund at September 30, 2006, was approximately \$322,000.

On September 13, 2006, the Authority entered into an offer to purchase a consumer run support services program structure for \$650,000. The purchase offer was accepted subsequent to year-end on October 5, 2006.

See accompanying independent auditors' report.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Finance and Audit Committee
Community Mental Health Authority of
Clinton, Eaton, and Ingham Counties
Lansing, Michigan

We have audited the financial statements of the governmental activities and the aggregate remaining fund information of the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority), as of and for the year ended September 30, 2006, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated February 16, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements, and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted other matters involving the internal control over financial reporting that we have reported to management of the Authority in a separate letter dated February 16, 2007.

This report is intended solely for the information and use of the Finance and Audit Committee, management, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Finance and Audit Committee Community Mental Health Authority of Clinton, Eaton, and Ingham Counties Lansing, Michigan

Compliance

We have audited the compliance of the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended September 30, 2006. The Authority's major federal programs are identified in the accompanying summary of auditors' results and schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Authority's management. Our responsibility is to express an opinion on the Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations*. Those standards and *OMB Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Authority's compliance with those requirements.

In our opinion, the Authority complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2006.

Internal Control Over Compliance

The management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Authority's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grant agreements caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities and the aggregate remaining fund information of the Authority, as of and for the year ended September 30, 2006, and have issued our report thereon dated February 16, 2007. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of expenditures of federal awards required by *OMB Circular A-133* and the Substance Abuse Prevention and Treatment Schedule of Expenditures are not a required part of the basic financial statements but are presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Finance and Audit Committee, management, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards

1. Summary of Significant Accounting Policies

The accounting policies of the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the Authority's significant accounting policies for its federal grants:

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Authority and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *OMB Circular A-133*, *Audits of States*, *Local Governments*, and *Non-Profit Organizations*; therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Property and Equipment

Property and equipment costs are charged to program costs as incurred.

2. Description of Grant Programs

Substance Abuse & Mental Health Services Administration - This program integrates multiple paths to achieve comprehensive children's treatment.

Block Grant for Prevention and Treatment of Substance Abuse - This program provides services to substance abusers. Services include outpatient counseling, correctional assessment and treatment, residential, older adult substance abuse prevention and treatment, dual diagnosis, and recovery. Funding is provided to the Authority through agreements with the Mid-South Substance Abuse Commission.

Block Grants for Community Mental Health Services:

Respite - The purpose of this program is to provide children respite services. Funding is provided through agreements with the Michigan Department of Community Health.

Notes to Schedule of Expenditures of Federal Awards

Block Grants for Community Mental Health Services (Continued):

Wraparound Coordination - This program provides services needed to reinforce family strengths and foster self-sufficiency for children with severe emotional disorders. Funding is provided through agreements with the Michigan Department of Community Health.

Transitional Youth Services - This program provides a transitional bridge between children and adult mental health service systems, and provides linkages to educational, vocational, and other community services. Funding is provided through agreements with the Michigan Department of Community Health.

Juvenile Justice - This program provides funding to develop programs and training to local governments in planning, establishing, funding, operating, and evaluating juvenile delinquency programs. Funding is provided through agreements with the Michigan Department of Community Health.

Co-Occurring Disorders: Integrated Dual Disorders Treatment - The focus of the program is to implement mental health practice improvements.

Parent Management Training - The focus of the program is to implement mental health practice improvements.

Jail Diversion - This program promotes development of training for all criminal justice and aspects of jail diversion and expands knowledge in serious and persistent mental illness, emotional disturbance, and development disabilities.

JIMHO Equipment - This program purchases equipment to assist with the primary mentally ill individuals working within their own recovery plan.

Homeless Youth Outreach Expansion Project - This program provides funds for education and prevention services to runaway, homeless, and street youth. Funding is provided through agreements with the Michigan Department of Community Health.

Notes to Schedule of Expenditures of Federal Awards

Block Grants for Community Mental Health Services (Concluded):

Mental Health Services for the Homeless - This program provides intervention services to homeless individuals. Primary services include home-finding and long-term outreach counseling. Funding is provided through agreements with the Michigan Department of Community Health.

McKinney Homeless Act - This program provides support services to individuals with mental illness who are homeless or at imminent risk of homelessness.

Child Care and Development Block Grant - The focus of this program is to provide childcare consultation to Clinton, Eaton, and Ingham Counties.

Medical Assistance Program - This program provides preadmission screenings for nursing home admissions and initial resident reviews. Funding is provided through agreements with the Michigan Department of Community Health.

Wraparound (Title IV E) - This program provides technical assistance and support to families with children at imminent risk of removal. Funding is provided by the Michigan Department of Human Services.

Supportive Housing Program - This program promotes development of supportive housing and supportive services for individuals transitioning from homelessness. Funding is provided through agreements with the Office of Community Planning and Development.

February 16, 2007

Community Mental Health Authority of Clinton, Eaton, and Ingham Counties 812 East Jolly Road, Suite 210 Lansing, Michigan 48910

Dear Members of the Board, Executive Director, and Finance Director:

Professional standards require us to advise you of the following matters relating to our recently completed audit. The matters discussed herein are those that we have noted as of February 16, 2007, and we have not updated our procedures regarding these matters since that date to the current date.

Our Responsibility Under Generally Accepted Auditing Standards

As stated in our engagement letter dated September 26, 2006, our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatements, whether caused by error or fraud. An audit in accordance with generally accepted auditing standards does not provide absolute assurance or a guarantee of the accuracy of the financial statements and is subject to the inherent risk that errors or fraud, if they exist, have not been detected. Such standards also require that we obtain a sufficient understanding of Community Mental Health Authority of Clinton, Eaton, and Ingham Counties' (the Authority) internal control to plan the audit. However, such understanding is required for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Authority are described in the notes to the financial statements. We noted no transactions entered into by the Authority during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

Accountants and Consultants

Community Mental Health Authority of Clinton, Eaton, and Ingham Counties February 16, 2007 Page Two

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based upon management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. Our audit procedures included inquiries about, and a review of, significant management judgments and accounting estimates.

There were no material contingencies, as defined in FASB Statement No. 5, for which we had questions or concerns about the reasonableness of the accounting or the adequacy of the financial statement disclosure.

Significant Audit Adjustments and Financial Statement Disclosures

For purposes of this letter, professional standards define a significant audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. The definition includes adjustments that were not recorded by the Authority because they are not material to the current financial statements but might be potentially material to future financial statements.

Management identified and provided us with 31 entries during the course of the audit for yearend adjusting entries. There were no significant audit adjustments identified in our audit procedures.

In addition, we proposed additional disclosures about the details of the Authority's defined contribution retirement plan. Management incorporated our suggested disclosures in the notes to the financial statements.

Disagreements With Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Authority's financial statements or the audit report. We are pleased to report that no such disagreements arose during the course of our audit.

Consultation With Other Accountants

There may be circumstances where the Authority considers consulting with other accountants about accounting and auditing matters. We are not aware of any situation where this occurred during the period.

Community Mental Health Authority of Clinton, Eaton, and Ingham Counties February 16, 2007 Page Three

Major Issues Discussed With Management Prior to Recurring Retention

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Authority's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Difficulties Encountered in Performing the Audit

We encountered expected delays in finalizing the audit due to the adjustment relating to the yearend settlement with the Michigan Department of Community Health. In all other respects, we had no difficulty in performing the audit.

Independence

Generally accepted government auditing standards require BDO Seidman, LLP, to be independent both in fact and appearance. We are not aware of any relationships between BDO Seidman, LLP, and the Authority that, in our professional judgment, may reasonably be thought to bear on our independence. We confirm that as of February 16, 2007, and throughout the September 30, 2006, audit, we were independent accountants with respect to the Authority in accordance with the requirements of the standards.

* * * * *

Should you desire further information concerning these matters, Doug Havera or Kristy Daniel will be happy to meet with you at your convenience.

This letter is solely for the internal use of the board and management of Community Mental Health Authority of Clinton, Eaton, and Ingham Counties and should not be distributed to any other persons or used for any other purpose.

Very truly yours,

BDO SEIDMAN, LLP

Certified Public Accountants

300 Seidman LLA

211 East Water Street, Suite 300 Kalamazoo, Michigan 49007 Telephone: (269) 382-0170 Fax: (269) 345-1666

February 16, 2007

Community Mental Health Authority of Clinton, Eaton, and Ingham Counties 812 East Jolly Road, Suite 210 Lansing, Michigan 48910

Members of the Board, Executive Director, and Finance Director:

During the course of our audit of the financial statements of Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (the Authority), for the year ended September 30, 2006, we observed the Authority's significant accounting policies, and certain business, financial, and administrative practices. In planning and performing our audit of the financial statements, we considered the internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. As a result of our observations, we noted the following:

Segregation of Duties

During our review of internal controls over cash disbursements, it was noted that the employee responsible for entering invoices for payment is also responsible for generating and mailing disbursements.

Recommendation

While the lack of segregation of duties is mitigated by review of expenditures by program managers and positive pay agreements with the bank, we recommend the Authority reevaluate job responsibilities to separate these duties. At a minimum, we would recommend that another employee match check copies to invoices to ensure disbursements are supported by proper approvals for disbursement.

New Standards

The AICPA has issued eight statements commonly referred to as the Risk Assessment Standards to improve the quality and effectiveness of audits. The new standards will result in an overall increased work effort by the auditors as they require auditors to obtain a more in-depth understanding of the Authority's operations and control environment and a more rigorous assessment of the risk of material misstatement of the financial statements.

BDO Seidman, LLP

Accountants and Consultants

Community Mental Health Authority of Clinton, Eaton, and Ingham Counties February 26, 2007 Page Two

The AICPA has also issued Statement of Auditing Standard (SAS) No. 103, Audit Documentation, which will change the auditors' report date. Historically, our report was dated the last day of fieldwork, although it is often several weeks or more before the actual financial statements are issued. The new standard requires us to date the report when we have received verification that the financial statements have been reviewed by management. This will result in a report date that is close to the date the financial statements are issued. Delays in releasing the financial statements may require us to perform additional procedures to comply with the new standard.

SAS No. 112, Communicating Internal Control Matters, provides guidance on communicating matters identified in the audit of the financial statements. There are new terms and guidance on evaluating the severity of control deficiencies.

SAS Nos. 103 and 112 will be effective for the year ending September 30, 2007, while the Risk Assessment Standards will be effective for the year ending September 30, 2008.

* * *

This letter is intended solely for the information and use of the Authority Board, Director, Finance Director, and others within the Authority and should not be used for any other purposes.

We appreciate the cooperation from your staff during our audit of the Authority's financial statements. We are proud to be associated with you and your organization and look forward to many more years of service to the Authority.

Very truly yours,

BDO SEIDMAN, LLP

Certified Public Accountants
